Iniesta PP

With 123 GZW, INIESTA PP is one of the high, homozygous polled Fleckvieh bulls. His pedigree has an unusual bloodline and the R-family of the Hubert Schrems breeding farm is a rich source of very balanced polled bulls for Fleckvieh breeding. With high production and fitness values, an ÖZW of 119, beta-casein A2/A2 and a very balanced linear profile, Iniesta PP can certainly be described as an outstanding all-rounder. Especially a very good udder health with high milkability stands out. The births tend towards the easy side and the expected calving ease of the daughters is rated very positively.

## Linear

| Merkmal | ZW | Tendenz | 88 | 112 | 124 | Tendenz |
|---|---|---|---|---|---|---|
| Height at cross | 102 | small | | | | large |
