Milano PP

Milano PP from Bernhard Fischer, Peuerbach is one of only two homozygous polled Merkel sons on the market and has two horned sires in the following dam line, Herzschlag and Perfekt. This is characterized by longevity and high performance. In addition to the dam, the granddam and great-granddam are also still working on the farm. Milano PP himself passes on excellent milk production, good fitness values with high daughter fertility and very good milkability. However, his conformation with very good feet & legs and udder inheritance is particularly noteworthy. Milano is well suited for heifers with very easy calving and tests A2A2.
