Hannibal

4 M: Sully Shottle May EX-91

Hannibal is the No. 1 Hotshot son in Germany and goes back to the family of Sully Shottle May EX-91. Hannibal convinces with high production in connection with excellent fitness values, extraordinarily good daughter fertility and high longevity, the overall health values are on an excellent level and also a very good milkability with a decent cell count is something to be proud of. He transmits a functional conformation with good feet and legs, longer teats and - often requested - less height, but with more strength and body depth, which is lacking in most bulls that limit size. Hannibal tests Kappa-Casein BB and has average births, while the daughters' maternal calving ease is positive at 103.
