COL Macao

Macao is an early Missouri son from the successful Larcrest Cosmopolitan family, who has been impressive for years with a very complete breeding value profile at a high level. The feedback on his daughters is extremely positive. Macao transmits a high production (performances over 40 kg M are the rule rather than the exception - with very good milkability), a balanced conformation, very good cell values, easy births and positive fitness and health values. With an RZRobot of 112, he is also well suited for AMS farms. Beta Casein A2/A2
