Dreamer Red

Dreamer Red is one of the top-performing, daughter-proven Red Holstein bulls of his year. He is one of the few bulls who, in addition to high milk production, also tests positively for milk components, which is not entirely surprising given that his dam has now produced over 50,000 kg of milk with high component levels. With no Salvatore, Pat Red, or Gywer in his pedigree, he is an attractive option for the numerous offspring of these sires in Red Holstein breeding. Besides his outstanding milk production, he impresses with very good udder conformation and high fitness scores, including good udder health, easy milking, and longevity. Dreamer is suitable for heifer insemination and, with an RZRobot score of 102, also for AMS (Automatic Milking System) farms. He tests A2/A2 and is not from embryo transfer.

Mutter: Bellevue VG-85
