4GM Wilder K35 Red EX-90

Wil Soccer P Red

Soccer P Red is the No. 1 Sailor son in the German system and goes back to the internationally very successful K-line from the Holtkamp breeding farm via the sire of sons Aristocrat, who is not very common in Germany due to contracts. Soccer himself is a real all-rounder and, in addition to a very good overall breeding value, offers high milk production, excellent fitness values with very good cell values, with average milking speed, a long useful life and very good health values. In addition, Soccer convinces with the inheritance of excellent conformation, which means that daughters with very good udders and feet and legs are not to be expected. Soccer is also very suitable for heifer insemination and inherits Kappa-Casein BB.

## Linear

Merkmal	ZW	Tendenz	88	112	124	Tendenz
Stature	98	small				tall
