5GM: Snowflake Mabelle EX-90

GM: HGH Palmer Michigan VG-85

Richie PP from the Beyer breeding farm in Seeste offers a refreshing alternative pedigree and is ideal for use with most of the daughters of the polled AI bulls that have been particularly popular in Germany in recent years. He is one of the early Rayban P sons; his sire Rainow has established himself as an internationally successful bull sire. On his dam's side, Richie PP traces back to the renowned Snowflake-Mabelle-EX-90 family via the high-yielding bull dam HGH Michigan.

Richie PP is one of the highest-yielding sbt. PP sires in the country. In addition to excellent milk yield, he impresses with high longevity, very good daughter fertility, good persistence, and positive milkability. His conformation is flawless, with plenty of body depth, impressive udder heredity, and longer teats. Richie PP is also A2A2 tested and, thanks to his functional traits, is very well suited for AMS operations.

## Linear

Merkmal	ZW	Tendenz	88	112	124	Tendenz
Stature	124	small				tall
