Udder	121

Kairos

Kairos is a Kerrigan son from alternative bloodlines, which goes back to the cow family of the legendary Italian show and breeding icon AE Inspiration Janette EX 93, which impresses over generations with its extreme components. Mother Imke was in the 1st lact. at 5.50% F/4.09% E, the GM Ilka has 88,000 kg LL after 5 lactations and was 2021 (for the second time after 2019) with 18,384 kg M with 4.93% F/3.77% E and 1599 kg R&D the cow with the highest lactation production in Germany. Kairos passes on these high components - his calved daughters prove this daily on the farm, plus beta-casein A2/A2 and an excellent conformation with very good udder and feet and legs transmission. The very good hoof health and suitability for AMS impresses (RZRobot 115) as well as his very good insemination results.

## Linear

Merkmal	ZW	Tendenz	88	112	124	Tendenz
Stature	117	small				tall
Rip structure	91	tight rib				open rib
Body depth	102	shallow				deep
Strength	97	frail				strong
Rump angle	110	high pins				sloped
Thurl width	106	narrow				wide
Rear legs side view	82	posty				sickled
Foot angle	120	flat				steep
Hock quality	108	coarse				dry
Rear legs rear view	102	hocked in				parallel
Front feet orientation	79	hocked in				parallel
Locomotion	104	poor				good
Rear udder height	131	deep				high
Udder cleft	120	weak				strong
Front teat placement	102	wide				close
Rear teat placement	102	wide				close
Fore udder attachment	108	loose				strong
Udder balance	111	ht				vt
Udder depth	110	deep				high
Teat length	92	short				long
