DMH Metani

Metani is one of the best sons of Migel and goes back in the dam line through generations of very well classified cows - with high production and outstanding components - to the 'million-dollar-cow' Lylehaven Lila Z EX 94 (by Durham). The inheritance profile shows Metani to be an outstanding production sire (plus beta-casein A2/A2) with very good fitness and health values. Particularly noteworthy is his outstanding daughter fertility, which is an absolute rarity in such a high production sire. The linear profile is very balanced and completely faultless and suggests medium-sized, development-capable offspring with high functionality. The RZRobot of 106, easy births and a very favorable paternal calving ease round off the positive overall picture.

## Linear

Merkmal	ZW	Tendenz	88	112	124	Tendenz
Stature	101	small				tall
Rip structure	105	tight rib				open rib
Body depth	91	shallow				deep
Strength	98	frail				strong
Rump angle	101	high pins				sloped
Thurl width	94	narrow				wide
Rear legs side view	105	posty				sickled
Foot angle	93	flat				steep
Hock quality	103	coarse				dry
Rear legs rear view	93	hocked in				parallel
Front feet orientation	109	hocked in				parallel
Locomotion	107	poor				good
Rear udder height	116	deep				high
Udder cleft	105	weak				strong
Front teat placement	95	wide				close
Rear teat placement	103	wide				close
Fore udder attachment	109	loose				strong
Udder balance	84	ht				vt
Udder depth	108	deep				high
Teat length	90	short				long
