DMH Metani

Metani is one of the best sons of Migel and goes back in the dam line through generations of very well classified cows - with high production and outstanding components - to the 'million-dollar-cow' Lylehaven Lila Z EX 94 (by Durham). The inheritance profile shows Metani to be an outstanding production sire (plus beta-casein A2/A2) with very good fitness and health values. Particularly noteworthy is his outstanding daughter fertility, which is an absolute rarity in such a high production sire. The linear profile is very balanced and completely faultless and suggests medium-sized, development-capable offspring with high functionality. The RZRobot of 107, easy births and a very favorable paternal calving ease round off the positive overall picture.

Linear

Merkmal	ZW	Tendenz	88	112	124	Tendenz
Stature	101	small				tall
Rip structure	104	tight rib				open rib
Body depth	91	shallow				deep
