DG Vekis Panther

Panther descends from the TOP bull dam DG Vekis Paige, which goes back to the famous show and breeding cow EI-Dor Saber PANSY EX-95 and he is still one of the highest bulls of his year. With high components (in practice often protein% from 3.6 to 4%), very good udder health and daughter fertility, a long useful life and good conformation, with strengths in body and udder transmission, Panther convinces with an attractive overall package. The inheritance of his teat placement and length is particularly suitable for AMS farms (RZRobot 118). Beta Casein A2/A2
