WEH Ristan

Ristan is a Rainow son who tests highly in various international systems and comes from a very deep cow family with a very interesting line of fathers from the Wentrup breeding farm, from which several bulls have already been used at European stations. Ristan himself impresses with his excellent performance with enormous components, good daughter fertility, solid health values, easy births and an attractive exterior with good udder inheritance and longer, centrally placed teats. Ristan also tests for the top combination of beta-casein A2A2 and kappa-casein BB.
