Mutter: Danhof Gameday Geiles Ger?t VG-85

Bologna

Bologna combines, through his sire Bosvito (from three generations of EX dams in the Cookiecutter MOM Halo family) and his Gameday dam—rated VG-85 (Udders 86, Legs & Feet 86)—at the time one of Europe's highest-TPI breeding cows—the exceptional cow families of Dellia EX-95 and Rotate Gaiety EX-90, from which the long-standing star Glamour Red also descends. On the maternal side, the line traces back directly through eight generations of VG- or EX-rated cows to Schillview Mtoto Gladd VG-88.

As a complete all-rounder, Bologna impresses with good production, top-quality milk components, a long productive life, excellent udder health scores (SCS), and outstanding fitness traits. His conformation stands out for its strong dairy type, broad hips, and very good udders. This kappa-casein BB sire is also ideally suited for heifer insemination.
