3GM AL-Lew Monterey Ashley 1346 EX-95

Tamino PP

With Tamino PP, we are pleased to present an exciting PP sire with an outcross pedigree for German polled breeding, as his sire, Winstar Taft-PP, was rarely used in Europe.

Tamino PP stands out for his high total breeding value and strong milk production genetics with favorable nutrient profiles. On his dam's side, he carries the blood of the top Canadian sire Monteverdi. Just like his maternal half-brother Cupra PP, he thus comes from one of the deepest and most consistent cow families in North America: 13 consecutive generations of VG or EX-rated dams from the legendary Aristocrat cow line demonstrate outstanding heritability over decades.

In practice, Tamino PP promises vigorous offspring with solid conformation and strong dairy traits. His daughters develop into long-lived, healthy free-stall cows with well-attached, functional udders. Since he also passes on easy calving traits, Tamino PP can be unreservedly and confidently recommended for use on heifers.
