6M: Hin Mogli EX-90

Hin Mood

Mood from the Hinnemann breeding operation is a son of Elon, a sire not widely used in Germany, and a high-producing daughter of Parfect, who traces back to Hin Macao EX-90—a successful bull that also tested well in the German system. Mood himself stands out as a well-rounded all-around sire, boasting a good overall breeding value with very high milk production and favorable nutrient profiles, good daughter fertility, positive health traits, and very good conformation—characterized by slightly smaller stature, a gently sloping, wider pelvis, and very good leg and udder heredity. Thanks to very easy calvings, Mood is also well-suited for use with heifers.
