MHD Rolex PP

Rolex PP from Milchhof Diera is the only German Remover son on the market, who in turn is the most popular son of the very successful Luster P in the USA. On the dam's side, the hornlessness comes from the bull sires Simplicity P and Answer P, who are also successful in the USA and have hardly been used in Germany. Rolex PP is therefore an outcross sire who can be bred to the offspring of most sires used in Germany. Rolex himself is particularly impressive due to his high production with positive components and a faultless linear with very good udder inheritance.

Linear

	ZW	-2	2
Stature	0.59	small	tall
Dairy character	0.3	tight rib	open rib
Body depth	0.64	shallow	deep
Strength	0.47	frail	strong
