Walhalla PP

Walhalla PP is a homozygous polled son of the Canadian sire Wolfgang P and goes back to Wilder Herz P and European Champion Batke Outside Kora EX-94 on the dam's side via the two already older, but with several thousand daughters very successful and proven bull sires Hurtgenlea Charl and Silverridge Imax. As the sire has not been used much in Germany and there are initially two horned bulls on the dam's side, he has an alternative pedigree in polled breeding and is suitable for many matings. Walhalla PP himself convinces with a very good performance as well as an attractive conformation with not too much size, slightly sloping, wider rumps and very good udder inheritance. In addition, Walhalla tests A2A2 and is very suitable for heifer inseminations.
